Education

Indira Gandhi National Open University (IGNOU)

Bachelor of Computer Applications

Delhi, India

Jul 2024 – Jul 2027

Indian Institute of Computer Science (IICS)

Master Diploma in Computer Engineering

Delhi, India

Jul 2024 – Jun 2027

Technical Skills

Languages: JavaScript, Python, C++, SQL

Frameworks: React.js, Node.js, Express.js, Flask, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Linux, Postman, Vercel

Libraries: OpenCV, MediaPipe

Core Skills: REST APIs, Responsive Design, Computer Vision, Open Source, Git Workflows

Experience

Founder & Community Lead

CDN IGNOU

Jan 2026 – Present

Delhi, India

- Founded and scaled a student developer community focused on software engineering, open-source collaboration, and peer learning.
- Organized technical workshops, hackathons, and developer events while managing speakers, volunteers, and event logistics.
- Built partnerships through Commudle to expand technical outreach and increase community engagement.

Project Admin

Social Summer of Code

May 2026 – Present

Remote

- Mentor contributors by reviewing pull requests, resolving issues, and guiding developers through Git and GitHub workflows.
- Coordinate project management activities, contributor communication, and code review processes across multiple repositories.

Open Source Contributor

GSSoC, Apertre 3.0, Nexus Spring of Code

Feb 2026 – Present

Remote

- Contributed features, bug fixes, documentation improvements, and code reviews across multiple open-source repositories.
- Collaborated with maintainers using Git-based development workflows while gaining experience with large collaborative codebases.

Technical Content Creator

Self Taught Bob

May 2026 – Present

Remote

- Publish project-based tutorials covering web development, Git, open source, and software engineering for aspiring developers.

Projects

AutoBotX | *Python, OpenCV, MediaPipe* | GitHub

- Developed a computer vision-based automation system using OpenCV and MediaPipe to recognize hand gestures and automate manual workflows.
- Implemented real-time image processing and gesture tracking, earning **2nd Place** in an IoT Hackathon for technical innovation.

Developer RPG Profile Generator | *React.js, Node.js, Express.js, MongoDB* | GitHub

- Built a full-stack web application that converts GitHub profiles into RPG-inspired developer cards using GitHub APIs.
- Designed a scalable MERN architecture with reusable APIs and responsive UI components for dynamic profile generation.

Open Source Contribution Atelier | *React.js, Node.js, Express.js, MongoDB* | GitHub

- Developed a MERN-based learning platform that teaches Git, GitHub, and open-source contribution through structured project-based modules.
- Implemented beginner-to-advanced learning paths covering issues, pull requests, code reviews, and collaborative development workflows.

Personal Portfolio | *React.js, JavaScript, Tailwind CSS* | Live

- Designed and deployed a responsive developer portfolio showcasing projects, technical skills, and open-source contributions.
- Integrated GitHub and LinkedIn for seamless recruiter access while optimizing performance across desktop and mobile devices.

Achievements

- Secured **2nd Place** in an IoT Hackathon with AutoBotX, a computer vision automation project.
- Ranked among the **Top 25 Contributors** in Apertre 3.0 for impactful open-source contributions.
- Selected as a **Project Admin** for Social Summer of Code 2026, mentoring contributors and managing collaborative development workflows.
- Founded CDN IGNOU, leading technical workshops, hackathons, and community-driven developer initiatives.
